1.4. PUBLICATION, DISTRIBUTION, ETC., AREA

LC/PCC practice: Apply the *MARC 21* repeatable 260 field when there are changes in the publication, distribution, etc., information of a multipart monograph, serial, or integrating resource. Guidelines for the application are posted on the Library of Congress Web site at <http://www.loc.gov/catdir/cpsol/260field.html> and are included as an appendix to this LCRI.

LC/PCC guidelines for MARC 21 repeatable 260 field

260 Publication, distribution, etc. (Imprint)

First indicator = Sequence of publishing statements

2 Intervening publisher

3 Current/latest publisher

Second indicator = Undefined

blank Undefined

Subfield \$c (date of publication, distribution, etc.): only one 260 field may have subfield \$c. The one 260 subfield \$c in a record is also used to record an ending date of publication, distribution, etc., for a resource that has ceased or completed publication.

Application for multipart monographs and serials:

- Subfield \$c should appear in the 260 field with indicators ##. It may not be present in that field

(1) if description is not based on first/earliest issue or part, or

(2) if the serial cataloger optionally does not provide it following CONSER Standard Record guidelines.

Application for integrating resources:

- Subfield \$c should appear in the 260 field with indicators 3#.

→ *Alternative* for integrating resources: As long as there is only one 260 field, that 260 field may have both indicators ## and a subfield \$c. When publication, etc., information changes, the indicators in that one 260 field need to be changed to 3# or the subfield \$c needs to be moved to the new 260 field with indicators 3#.

LC practice: The decision to apply the alternative for integrating resources is cataloger's judgment.

Subfield \$3 (materials specified): give information to differentiate multiple 260 fields; use angle brackets if specific beginning and/or ending information is not known.

1.4 Appendix

Application for multipart monographs*: volume numbering (found or assigned if creating a made-up set); optionally add dates of publication, distribution, etc., if helpful to clarify volumes published out of sequence

Application for serials*: usually chronological designations

Application for integrating resources: numbering assigned to updates if present; otherwise, publication dates

* Exception for multipart monographs and serials: subfield \$3 can be omitted in the 260 field with indicators ## if the coverage of that information is clear from the other 260 field(s) and other data in the bibliographic record.

Order of 260 fields: Give fields in chronological order from earliest to latest.

Do not repeat specific changes of publication, etc., information in a 500 field. Use a 500 field if giving a general note about changes not given in an additional 260 field(s): e.g., "Place of publication varies."

A. MULTIPART MONOGRAPHS and SERIALS

1. Creating the record for a multipart monograph or serial:

- a. Give the earliest publication, etc., information in a 260 field.

```
260 ## $a Earliest place of publication, etc.  
      : $b Earliest publisher, etc., $c Beginning  
      date
```

2. Updating the multipart monograph or serial record because information has changed and the new information is necessary for identification or access:

- a. Modify the existing 260 field only to add subfield \$3.

```
260 ## $3 span for first publication statement:  
      $a Earliest place of publication, etc.  
      : $b Earliest publisher, etc., $c  
      Beginning date
```

- b. Add another 260 field for the current publication, etc., information.

260 3# \$3 beginning information for later
publication information: \$a Current
place of publication, etc. : \$b
Current publisher, etc.

3. Updating the multipart monograph or serial record because information has changed again and the new information is necessary for identification or access:

- a. Do nothing to the 260 field with indicators ##.
- b. Modify the 260 field with indicators 3# to change the first indicator to “2” and close the span of information in \$3.
- c. Add a third 260 field for the current publication, etc., information.

260 3# \$3 beginning information for later
publication information: \$a Current
place of publication, etc. : \$b
Current publisher, etc.

4. Updating the multipart monograph or serial record another time because information has changed again and the new information is necessary for identification or access:

- a. Do nothing to the 260 field with indicators ## or to the 260 field with indicators 2#.
- b. Modify the 260 field with indicators 3# to change the first indicator to “2” and close the span of information in \$3.
- c. Add a fourth 260 field for the current publication, etc., information.

260 3# \$3 beginning information for later
publication information: \$a Current
place of publication, etc. : \$b
Current publisher, etc.

B. INTEGRATING RESOURCES

1. Creating the record for an integrating resource:

- a. Give the current publication, etc., information in a 260 field.¹

¹ See alternative for integrating resources on p. 1.

1.4 Appendix

260 3# \$a Current place of publication, etc. :
\$b Current publisher, etc., \$c

260 3# \$3 beginning information for this
publication information: \$a Current
place of publication, etc. : \$b
Current publisher, etc., \$c Beginning
date of integrating resource

b. If the earlier publication, etc., information is necessary for identification or access, give it in a new 260 field.

260 ## \$3 span for earlier publication
information: \$a Earlier place of
publication, etc. : \$b Earlier
publisher, etc.

3. Updating the integrating resource record because information has changed again:

a. Revise the existing 260 field with indicators 3# to give current information in subfields \$3, \$a, and \$b.

260 3# \$3 beginning information for this
publication information: \$a Place of
publication, etc. : \$b Publisher,
etc., \$c Beginning date of
integrating resource

b. Do nothing to the existing 260 field with indicators ##.

c. If the intervening publication, etc., information is necessary for identification or access, give it in a new 260 field:

260 2# \$3 span for intervening publication
information: \$a Intervening place of
publication, etc. : \$b Intervening publisher,
etc.

4. Updating the integrating resource record another time because information has changed again:

a. Revise the existing 260 field with indicators 3# to give current information in subfields \$3, \$a, and \$b.

260 3# \$3 beginning information for this publication
information \$a Current place of publication,
etc. : \$b Current publisher, etc., \$c Beginning
date of integrating resource

b. Do nothing to the existing 260 field with indicators ##.

c. Do nothing to the existing 260 field with indicators 2#.

d. If the intervening publication, etc., information is necessary for identification or access, add it in a fourth 260 field:

260 2# \$3 span for intervening publication information:
\$a Intervening place of publication, etc. : \$b
Intervening publisher, etc.

Introduction

Transcribe in the series area the title of any comprehensive publication (monographic series, other serial, multipart item, integrating resource) of which the item is a part.

Unless a specific category is mentioned, the term "series" in any of the 1.6 LCRIs means any of the comprehensive publications mentioned above.

Organization of the LCRIs on Series

This general LCRI (1.6) addresses situations in which a series statement should be given in a bibliographic record. LCRI 1.6A2 gives information about sources for the series statement. LCRIs for 1.6B-C, E-H deal with the separate data elements given in a series statement. LCRI 1.6J includes information about some special situations in which more than one series statement is given. The

1.6

intent is that these LCRIS deal with the series statement only as an area of bibliographic description; however, until a new introductory rule or LCRI is written for AACR2 Chapter 21, LCRI 1.6 and LCRI 1.6H will continue to include some information about the number of series headings appropriate to specific situations.

See AACR2 rule 21.30L and LCRI 21.30L for information about access points for series.

On June 1, 2006, LC announced a change in policy applying to all bibliographic resources (monographs, serials, and integrating resources) in series. LC now analyzes and classifies separately all parts of monographic series and of multipart monographs with the exception of those categories listed in LCRI 13.3.

As of the same date, LC does not give “controlled” access points for series in new LC original cataloging (CIP and non-CIP) bibliographic records, does not update series access points in existing bibliographic records, and does not consult, make, or update series authority records. (Exception for consulting SARs: see LCRI 25.5B for determining “conflict.”) LC will “pass through” the series information already in bibliographic records used by LC as copy (CIP/LC partner records, PCC records, and non-PCC (including Casalini) records).

PCC practice: Transcription of the series statement is mandatory if applicable. Searching for series authority records, tracing the series, and the creation and maintenance of series authority records are optional.

Series or Phrases

Distinguish between phrases that are true series and those that are not, with the latter sometimes included elsewhere in the bibliographic record (e.g., given as a quoted note) and sometimes not transcribed at all. A decision on series vs. phrase does not apply to such specific information as publishers' and plate numbers for printed music or publishers' stock numbers for sound recordings; such numbers are addressed in AACR2 rules 5.7B19 and 6.7B19.

PCC practice: If a decision concerning the phrase has not been recorded in the national authority file, base the current decision primarily on judgment. The guidelines below apply to some common situations; it is *not* a closed list. Generally, make SARs for categories 1) through 5).

1) If the phrase is essentially an unnumbered statement of the name of the body from which the item emanates, reject it as a series. Give the phrase as a quoted note if the name of the emanating body is not given elsewhere in the bibliographic record (e.g., in the publication, distribution, etc., area; in a note for the issuing body).

260 ## \$a San Diego, Calif. : \$b Published for the

260 ## \$a Grand Rapids : \$b Zondervan, \$c 1987.

500 ## \$a "An Evangelical Theological Society
publication."

(Reject the phrase as a series; give it as a quoted note)

2) If the phrase is essentially a *numbered* statement of the name, initialism/acronym, or part of the name of the body from which it emanated and that body is not a commercial publisher, transcribe the information in the series area.

in source: Buckinghamshire Record Society No. 21

490 \$a Buckinghamshire Record Society ; \$v no. 21

490 \$a HAZ ; \$v 6

3) If the phrase is essentially a numbered/unnumbered statement of the commercial publisher or includes a sub-imprint name or name of a subsidiary, a division, etc., of a publishing firm, reject it as a series. Give the phrase as a quoted note if the name is not given in the publication, distribution, etc., area.

in source: DAW Books No. 761

260 ## \$a New York : \$b DAW Books, \$c 1991.

(Reject the phrase as a series; do not give it as a quoted note)

in source: An Interscience publication

260 ## \$a New York : \$b Wiley, \$c 1993.

500 ## \$a "An Interscience publication."

(Reject the phrase as a series; give as a quoted note)

4) If the phrase includes the name of an in-house editor or the name or designation of some other official of the firm, etc., reject it as a series. Give the phrase as a quoted note.

500 ## \$a "A Helen and Kurt Wolff book."

5) If a named lecture series appears on the item as a series title, i.e., it is not extracted from another context (e.g., other title information, prefatory material) *and* it has or is likely to have data that remain constant from issue to issue, treat the name of the lecture series as a series title. In case of doubt, do not treat the name as a series. If the name is rejected as a series, record the name in the title and statement of responsibility area or give the name with associated data in a quoted note.

500 ## \$a "Stephanos Nirmalendu Ghose lectures on

6) Do not treat as a series a number that cannot be associated with a series title. Generally, do not treat as a series a combination of letters or letters and numbers that cannot be associated with a series title if there is evidence that the combination is assigned either to every item the entity issues for control purposes or to certain groups of items for internal control or identification. Give the information as a quoted note; do not give the note on a bibliographic record for a serial.

500 ## \$a "UC-13."

500 ## \$a "CRN 780206-00050."

500 ## \$a "SP-MN."

7) If the phrase is a slogan, motto, prize, etc., reject it as a series. Give it as a quoted note if it appears on the chief source.

(Reject the phrase as a series)

in source: Workers of the whole world, unite!
(Reject the phrase as a series)

in source: Premio Casa de las Américas 1994
(Reject the phrase as a series)

8) If an unnumbered genre/characterizing word in the singular form or plural form having singular meaning (e.g., "Novel," "Mystery," "Témoignage," "Essai," "Piano solo," "Graphics," "Multimedia") appears only on the cover or container, reject it as a series. Generally, do not give it as a quoted note.

9) If an unnumbered phrase indicating a broad subject or category (e.g., "Computers," "Etiquette," "Contemporary history," "Educational software") appears only on page 4 of cover or the flaps or on container, reject it as a series; the phrase is provided by the

publisher/manufacturer for retail stores, etc. Do not give it as a quoted note.

10) If the publisher's listing is subdivided into broad categories, generally do not consider the captions to be series titles unless (a) the same phrases appear elsewhere in the item as series titles, (b) the phrases include a word such as "series," "library," "collection," etc., or (c) there is other evidence of intent to consider the captions to be series titles (e.g., the titles listed under each caption are numbered sequentially). Do not give as quoted notes.

 (Reject both captions as series titles: words do not appear elsewhere as series titles)

in source: Vocal solos

 Choral arrangements
 (listing of ten titles --- no numbering)
 Dance orchestrations
 (listing of three titles -- no numbering)
 (Reject all captions as series titles: words do not appear elsewhere as series titles)

Republications

When cataloging a republication, transcribe in the series area a series statement relating only to the republication.

```
490  $a Pierpont Morgan Library music manuscript reprint|
      series
490  $a Reprints in Canadian history |
```

In the bibliographic history note, transcribe, in parentheses, a series statement for the original series only if the original series statement was also reproduced in the republication. (Cf. LCRI 2.7B7)

Selected Issues of Periodicals Published Separately

Several publishers (e.g., Haworth Press, Pergamon Press) publish separate hardcover or softcover editions of *selected* issues of their periodicals.

LC/PCC practice: Do not consider such a separately published issue to constitute an integral part of the periodical, i.e., do not consider it an analyzable issue of the periodical. In the bibliographic record for the separately published issue, give the pertinent information as a note, not as a series statement. (Cf. LCRI 21.30G for the related work added entry.)

500 ## \$a Published also as v. 17, no. 1/2, 1993 of the

Supplements and Special Numbers to Serials

Numbered supplements. Treat a numbered supplement to a serial as a series.

490 \$a Supplement to Word ; \$v monograph no. 3

in source: Journal of Ultrastructure Research

490 \$a Journal of ultrastructure research.

Special numbers and unnumbered supplements

LC/PCC practice: Do not treat a special number or an unnumbered supplement to a serial as a series. Give the information in a note if it is not already recorded in the title and statement of responsibility area. (Cf. LCRI 21.30G for the related work added entry.)

(*Note:* A supplement that is numbered only in relation to a particular number of a serial (e.g., supplements 1 and 2 to v. 10, no. 1 of the serial) is considered to be unnumbered since there isn't a separate numbering system for that supplement.)

Series Title Grammatically Connected to Title of Item

LC/PCC practice: If the series title is grammatically linked to the title of the item being cataloged, do *not* separate the series title from the latter. Record the grammatically-linked title as the title proper of the item; record information in the series area only if the series title is presented separately in another source in the item.

Motion Pictures, Television Programs, and Videorecordings

Note: LC uses the cataloging manual *Archival Moving Image Materials* for its moving image materials cataloging. This manual has different guidelines than those in AACR2 about the choice and construction of titles proper and series titles.

PCC practice: Use AACR2 when cataloging motion pictures, television programs, and videorecordings. Do not request changes in LC's bibliographic records for motion pictures, television programs, and videorecordings.

TITLE PROPER OF SERIES**TABLE OF CONTENTS****Inaccuracy in Title Proper of Series****Only Some Parts in a Series****Embedded Series Titles****Series Title in Two or More Languages or Scripts****Single Letter or Group of Letters at End of Title Proper****Recording Section Title Without the Title Common to All Sections****Single Series Statement Encompassing More Than One Series**

Inaccuracy in Title Proper of Series

Do not correct an inaccuracy in the title proper of a series; transcribe such an inaccuracy according to rule 1.0F1. If the series title proper appears in full and in the form of an acronym or initialism in the prescribed source for the series area, the choice of which form to transcribe as series title proper in the series area is cataloger's judgment.

PCC practice

When determining headings in series authority records for serials (including monographic series) and integrating resources: 1) if there is an inaccuracy in the title proper, correct that inaccuracy in the heading (rule 12.1B1); 2) if the series title appears in full and as an acronym or initialism in the prescribed source, use the full form in the heading (rule 12.1B2). For multipart monograph headings, correct any inaccuracy; the choice of full form vs. acronym or initialism in the heading for a multipart monograph is cataloger's judgment.

Only Some Parts in a Series

If some parts of an item are issued in a series and the other parts are not, precede the series title with an indication of the particular parts to which the series title applies. Separate the indication of the particular parts from the series title with a colon-space.

Series Title in Two or More Languages or Scripts

If a series title appears in two or more languages or scripts, choose as the title proper for the series statement the title that matches the language (or the clearly predominant language) of the particular item being cataloged. If this criterion cannot be applied, choose the first series title as the title proper. (For recording series titles in other languages or scripts as parallel titles, see AACR2 rule 1.6C and LCRI 1.6C.)

Single Letter or Group of Letters at End of Title Proper

When a letter or group of letters is presented in the item in combination with its numbering, determine whether the letter or letters constitutes a part of the title proper or part of the numbering system. Consider the letter or letters to constitute part of the title proper if, were the letter or letters omitted from the title proper and recorded as part of numbering, the resulting title would be identical to other series titles emanating from the same corporate body.

Recording Subseries Title When Main Series Title is Not Present

AACR2 rule 12.1B6 stipulates that "If the title of a section or supplement is presented in the chief source of information without the title that is common to all sections, give the title of the section or supplement as the title proper." For purposes of recording information in the series area, "section" refers to a subseries title and "common title" generally refers to a main series title. In some cases, the title proper comprises a configuration that would be regarded as a designation of a subseries followed by the subseries title were a main series title present.

Serie G, Estudios doctrinales

Serie E, Varios

Serie B, Forskningsrapporter

LC/PCC practice: When such configurations are being recorded in the absence of a main series title, use a dash (two adjacent hyphens) in place of a comma-space to make it absolutely clear that the entire configuration is the title.

Single Series Statement Encompassing More Than One Series

When the series statement on the resource being cataloged encompasses more than one series, transcribe the information according to the guidelines below.

a) *Single series statement.* If the information is presented with no or minimal extraneous wording, transcribe it as a single series statement.

1.6J. MORE THAN ONE SERIES STATEMENT

If some parts or issues of a multipart item or serial are published in one series and other parts/issues are published in another series, precede each series title with an indication of the particular parts or issues to which that series title applies. If a series has changed its title (cf. AACR2 21.2C and its LCRI), treat each title as a separate series. Separate the indication of the particular parts from the series title with a colon-space.

1.7B20. COPY BEING DESCRIBED, LIBRARY'S HOLDINGS, AND RESTRICTIONS ON USE

LC practice: Routinely make notes on any special features or imperfections of the copy being described. Carefully distinguish between such copy-specific notes and other kinds of notes that record information valid for all copies of an edition. Introduce copy-specific notes with the phrase "LC copy ..." or "LC set ..." or "LC has ..." as appropriate. Formulate the note according to current cataloging conventions, including those for ending punctuation. Add the *MARC Code List for Organizations* (MCLO) code for LC (DLC) in subfield \$5 at the end of the field without any ending punctuation. Generally do not make such notes for serials or integrating resources, use field 590 instead.

2.7B17. SUMMARY.

LC practice: Bibliographic records issued by the Library of Congress may include summaries, reviews, and abstracts from various sources, both internal and external. They are included either in MARC 21 field 520 (Summary, Etc.) or 856 (Electronic Location and Access). Those written by LC staff are not attributed. Those from other sources are enclosed within quotation marks (except those retained in records used for copy cataloging) and are attributed.

Field 520

Input **summaries written by LC staff** in field 520 with Indicator 1 set to **blank** (display constant "Summary"). Do not include statements of attribution.

Background: Records for which LC staff may write summaries include those:

- 1) originating in LC overseas offices (042 = lcode) to indicate the subject content of materials in languages not readily known in the U.S.;
- 2) for material intended for young readers most likely to be included in organized collections such as those found in school or public libraries (042 = lcac);
- 3) for electronic resources.

Input **summaries obtained from external sources** in field 520 with Indicator 1 set to **blank** (display constant "Summary"), in quotation marks, and with attribution. Examples of these include:

- 1) those provided by publishers in the Cataloging in Publication (CIP) program; attribution:

... -- \$c Provided by publisher.

- 2) those occurring in records supplied by vendors and used as the basis for LC original cataloging; attribution:

... -- \$c Provided by vendor.

- 3) those taken directly from resources themselves; attribution:

... -- \$c Unedited summary from book.

LC staff do not write reviews for bibliographic records. However, when officially sanctioned by LC management, they can be obtained from external sources. Input such **reviews** in field 520 with Indicator 1 set to **1** (display constant "Review:"), in quotation marks, and with attribution. Some examples of attribution are:

- 1) ... -- \$c Reviewed Mar. 2004, "Best Free Reference Web Sites 2004." RUSA Quarterly, Fall 2004. Comp. by the MARS Best Free Websites Committee, RUSA, ALA.;

2.7B17

- 2) ... -- \$c Handbook of Latin American Studies, v. 58. \$u
http://www.loc.gov/hlas/

Input **abstracts** obtained from external sources (LC staff do not write abstracts for bibliographic records) in field 520 with Indicator 1 set to **3** (display constant "Abstract:"), in quotation marks, and with attribution. Some examples of attribution are:

- 1) ... -- \$c World Bank Web site.

Retain **summaries, reviews, and abstracts already present** in field 520 in records used for copy cataloging (042 = lccopycat, pcc, etc.). Retain any attribution already present. If none is present, add the attribution:

... -- \$c Source other than Library of Congress.

However, do not enclose the summary, review, or abstract within quotation marks.

Field 856

Note: Providing 856 links to publisher descriptions, reviews, summaries, etc. is generally done as part of projects sanctioned by LC management.

Provide links to publisher descriptions in field 856 and include subfield \$3 (Materials specified) containing "Publisher description".

Provide links to externally obtained reviews in field 856 and include a subfield \$3 (Materials specified) that characterizes the review and its source, for example:

In link to externally obtained review:

Provide links to summaries in field 856 and include a subfield \$3 (Materials specified) that characterizes the summary and its source, for example:

Serials: In Numbered Series

Record the number of the series in the series statement in the three situations listed below. *PCC practice*: Include the number in the series added entry for the first and second situations; see the specific instruction for the third situation. Examples illustrate PCC practice.

- 1) a single issue of a serial is in a series;

```

3) all issues of the serial in the series carry the same number of the series. If part of the series number is the same on all issues of the serial, record only that part. *PCC practice*: include that part in the added entry for the series.

13.3. ANALYSIS OF MONOGRAPHIC SERIES AND MULTIPART MONOGRAPHS.

LC practice:

On June 1, 2006, LC announced a change in policy applying to all bibliographic resources (monographs, serials, and integrating resources) in series. LC now analyzes and classifies separately all parts of monographic series and of multipart monographs with the exception of those categories listed at the end of this LCRI. As of the same date, LC does not give “controlled” access points for series in new LC original cataloging (CIP and non-CIP) bibliographic records, does not update series access points in existing bibliographic records, and does not consult, make, or update series authority records. (Exception for consulting SARs: see LCRI 25.5B for determining “conflict.”) LC will “pass through” the series information already in bibliographic records used by LC as copy (CIP/LC partner records, PCC records, and non-PCC (including Casalini) records).

PCC practice:

Transcription of the series statement is mandatory if applicable. Searching for series authority records, tracing the series, and the creation and maintenance of series authority records are optional.

Monographic Series

When a publication in a monographic series that is analyzed in full lacks a title other than that of the comprehensive title or has a title that is dependent on the comprehensive title, prepare a separate bibliographic record for that part, regardless of whether the part is numbered or not. Apply the following when preparing the record.

- 1) Transcribe the comprehensive title as the common title of the analytic.
- 2) If there is numbering only, transcribe the numbering as the section title; if there is numbering and also a dependent title, transcribe the numbering as enumeration (cf. 12.1B6) and the dependent title as the section title; if there is a dependent title but no numbering, transcribe the dependent title as the section title.
- 3) Do not formulate a series statement for the analytic record.

Multipart Monographs

- 1) *Classified separately.* When a part of a multipart monograph that is classified separately lacks a title other than that of the comprehensive title or has a title that is dependent on the

13.3

comprehensive title, prepare a separate bibliographic record for that part, regardless of whether the part is numbered or not. Apply the following when preparing the record:

a) Transcribe the comprehensive title as the common title of the analytic.

b) If there is numbering only, transcribe the numbering as the section title; if there is numbering and also a dependent title, transcribe the numbering as enumeration or alphabetic designation and the dependent title as the section title; if there is a dependent title but no numbering, transcribe the dependent title as the section title.

c) Do not formulate a series statement for the analytic record.

245 10 \$a Recent trends in elementary education. \$n
Volume 1, \$p Introduction

(1) *Mixture of independent and dependent titles.* If a multipart monograph consists of parts whose individual titles are a mixture, i.e., some are independent of the comprehensive title and some are dependent on it, give a regular series statement in the records of the analytics with *independent* titles.

The art of sewing
(*An unnumbered multipart item*)

(*Title of analytic*)

245 \$a Basic tailoring / \$c ...
300 \$a 203 p. ; 26 cm.

(2) *All titles dependent titles: unnumbered.* If all the titles of the parts are dependent on the comprehensive title and the multipart monograph is unnumbered, for the analytics transcribe the comprehensive title as the common title and the title of the part as a section title.

Exceptions to the LC Series Policy to Analyze in Full and Classify Separately

A. The following categories will *not be analyzed* and will be *classed as a collection*; series authority records will not be consulted, created, or updated:

1. Numbered multipart monographs with all parts lacking analyzable titles
2. Unnumbered multipart monographs cataloged per “2A cataloging” guidelines (“2A cataloging” is a local LC practice to create a made-up collected set record for an unnumbered multipart monograph, assigning numbers to parts as received)
3. Auction and sales catalogs
4. Legal multipart monographs identified by LC’s Law Library
5. Numbered monographic series already assigned these treatment decisions prior to June 1, 2006 (issues identified by presence of check-in records in acquisitions units)

B. The following category will *not be analyzed* and *will not be classified*; series authority records will not be consulted, created, or updated:

1. Technical report series identified by LC’s Science, Technology, and Business Division or LC’s Asian Division and shelved in those divisions

C. The following categories will be *analyzed in full* but will be *classed as a collection*; series authority records will not be consulted, created, or updated:

1. Scholarly collections of music historical sources eligible to be classed together in M2
2. “Web access to monographic series” project in LC’s Social Sciences Cataloging Division
3. Microform sets
4. Proceedings of a single conference published in more than one volume with analyzable volume titles
5. Legal monographic series and multipart monographs identified by LC’s Law Library

D. The following category will be *analyzed in full: applies to analyzable parts* and will be *classed as a collection*; series authority records will not be consulted, created, or updated.

1. Complete editions of collected works of individual composers (classed in M3)

13.3

Prepare separate bibliographic records only¹ for parts that meet one of the following criteria (applying the definition of musical work in 25.25A, footnote 9):

a) A single part (in one or more physical volumes) contains a single musical work or a single excerpt from a work.

b) A single part (in one or more physical volumes) contains two musical works or two excerpts from one or two works.

E. Existing LC shelflist records missing in LC's database now being input to the database: the records will reflect the existing series decisions (i.e., presence or absence of controlled series access point; a classed-separately or a classed-as-a-collection call number) at the time the resource was cataloged originally.

¹The purpose of this restriction is to avoid analytic bibliographic records for parts of such sets that would themselves receive collective uniform titles under 25.34B or 25.34C.

Series Added Entry Guidelines (For PCC libraries only – the Library of Congress will no longer provide controlled series access)

LC practice:

On June 1, 2006, LC announced a change in policy applying to all bibliographic resources (monographs, serials, and integrating resources) in series. LC now analyzes and classifies separately all parts of monographic series and of multipart monographs with the exception of

21.30L

those categories listed in LCRI 13.3. As of the same date, LC does not give “controlled” access points for series in new LC original cataloging (CIP and non-CIP) bibliographic records, does not update series access points in existing bibliographic records, and does not consult, make, or update series authority records. LC will “pass through” the series information already in bibliographic records used by LC as copy (CIP/LC partner records, PCC records, and non-PCC (including Casalini) records).

PCC practice:

Transcription of the series statement is mandatory if applicable. Searching for series authority records, tracing the series, and the creation and maintenance of series authority records are optional. As of June 1, 2006, the following instructions in this LCRI apply only to PCC participants.

All the material in the remainder of this LCRI assumes the series decision recorded on the series authority record is to “trace” the series.

Unless a specific category is mentioned, the term “series” in this LCRI means any of these comprehensive items: monographic series, other serial, multipart item, integrating resource.

See AACR2 rules for the series area (1.6 ff.) and related LCRIs for information about series statements.

Option Decision

PCC practice: Apply the optional provision for adding the numeric, etc., designation of the series in the series added entry. Give it in the form established in the series authority record.

Form of Series Added Entries

Although a series statement may include a parallel title (1.6C), other title information (1.6D), a statement of responsibility (1.6E), or an ISSN (1.6F), the heading for a series consists only of one of the following: a title proper, a uniform title heading, a name heading/title proper, or a name heading/uniform title.

Multipart Item in a Series

If the parts of a multipart item are separately numbered within a series, give the numbers in the series added entry as they are given in the series statement (cf. LCRI 1.6G2) and in the form established in the series authority record.

Integrating Resource in One or More Series

Also provide an 8XX series added entry for any traced series included in a note. (Series

not present on the latest iteration will be given in the note area instead of in the series area — cf. rule 12.6B2 and 12.7B14.2b.)

Republications

If a republication contains the original series statement (transcribed in parentheses in the bibliographic history note—cf. LCRI 2.7B7), provide an 8XX series added entry for the series. Do not give a series added entry if the original series statement is lacking on the item even if information about the series is recorded in the bibliographic history note.

Numbering Grammatically Integrated with Series Title

21.30L

If the numbering, etc., of the series volume is grammatically integrated with the series title (cf. rule 1.6B1), in the 8XX field omit the numbering from the title and record it in subfield \$v.

More Than One System of Numbering

If more than one system of numbering is transcribed in the series statement (cf. LCRI 1.6G), in the 8XX field subfield \$v give the numbering in the system specified in the series authority record.

490 1# \$a _____ ; \$v Bd. 6, Nr. 2 = Nr. 32

Numbering Errors

Number Preceded by One or More Letters

When the numbers of items in the same series are preceded by a letter or letters varying from item to item (cf. LCRI 1.6B and LCRI 1.6G), omit the letter or letters from the 8XX subfield \$v.

830 #0 \$a _____ ; \$v 1.

When the only information available is from the one item in hand, assume all items in that series will have the same letter(s) preceding the number until differing information is available. Record the letter(s) in subfield \$v.

Numbering for Publications of the U.S. Congress

In series added entries for publications of the U.S. Congress, give the numbering relating to the numbering of the Congress and Session as the first part of subfield \$v, followed by the number of the publication within that Congress and Session.

```
490 1# $a Mis. doc / 49th Congress, 1st Session,
      Senate ; $v no. 82
830 #0 $a Mis. doc (United States. Congress. Senate) ;
      $v 49th Congress, 1st session, no. 82.
```

Transcribe the information for series publications of other legislatures as above if the situations are the same.

Main Series and Indirectly Entered Subseries

1) *Main series is unnumbered*

Do not give a separate series added entry for the main series unless the main series has already appeared by itself on other publications. Instead, give a series added entry for the main series/subseries combination.

```
490 1# $a Progress in nuclear energy. Series V,

830 #0 $a Progress in nuclear energy. $n Series V, $p

830 #0 $a University publications series. $p Social
      sciences ; $v no. 4.
      (made-up example)
```

Exception. If the main series appears on a later publication without any subseries, at that point establish the main series separately and make the series added entry separately for this and any other item showing only the main series. However, if later forms show both the main series and a subseries, use in the added entry only the form in which the subseries is already established.

2) *Main series is numbered*

Give two series added entries: one for the main series and one for the main series/subseries combination.

3) *Hierarchy of numbered and unnumbered main series/subseries*

If a hierarchy of main series and multiple subseries is involved and only some are numbered, treat the unnumbered ones under 1) above and the numbered ones under 2) above.

Single Series Statement Encompassing More Than One Series

When a single series statement encompassing more than one series has been included in the bibliographic record either in the series area or as a quoted note, provide a series added entry for each traced series.

One or Several Series Headings

1) *Language editions*

a) *Numbered series.* Distinguish between series that are issued in two or more parallel editions, i.e., complete editions in each language for which separate records and the use of uniform titles (cf. AACR2 25.3C3) are appropriate and those that are issued variously in two or more languages but for which no separate editions of the series exist in any language. If no separate editions exist, establish a single heading, basing it on the first item in the series; if the first item is not available, base the heading provisionally on the earliest item available. If the

first/earliest item itself is issued in several languages, choose the language of the title proper of the series according to the provisions of AACR2 1.0A3. In case of doubt, assume that a single edition exists.

b) *Unnumbered series*. If the language of the title of the series varies, generally establish separate headings for each language form and connect the headings by simple see also references. Do not assign AACR2 25.3C uniform titles.

2) *Changes in numbering (addition, omission, etc.)*

a) *Single series*. Consider that a single series exists if

(1) a numbered series has some random issues lacking numbering;

(2) a series first issued as unnumbered later has numbers and the numbering system takes into account the previous unnumbered issues (e.g., the first ten issues were published without numbering; numbering starts with "volume 11").

(3) a numbered series begins a new sequence of numbering either with or without wording such as "new series." (See 1.6G1 and its LCRI.)

b) *Multiple series*. Consider that multiple series exist if

(1) an unnumbered series becomes numbered and the numbering system excludes the previous unnumbered issues;

(2) a numbered series becomes unnumbered.

c) In case of doubt, consider the series to be a single series until other differing information is available.

3) *Different physical media*

a) *Single series*. Consider that a single series exists if the physical medium varies within the series (not a change from only one medium to only a different medium).

b) *Successive entry of a single monographic series*. If there is a change from only one medium to only a different medium, create a successive entry heading for the monographic series published in the different medium (cf. LCRI 21.3B).

c) *Multiple series*. Consider that multiple series exist if all parts of the series are each published in two or more different physical media. If the headings for the series are the same, add a qualifier to break the conflict in the headings. If the headings are not the same, connect the headings by simple see also references.

d) In case of doubt, consider the series to be a single series until other differing information is available.

26.1. GENERAL RULE.

Scope

In general, apply the guidelines in LCRI 26 when formulating the reference structure for new authority records and in evaluating references on existing authority records.

Normalization

Do not trace a see reference that would normalize to the same form as the heading or see reference on the same record or to the same form as a heading on another record.

Forms of References

In general, construct a reference in the same form in which it would be constructed if chosen as the heading. However, because the LC LC/NACO Authority File includes headings constructed according to earlier practices, in some cases references must be formulated to "match" the existing heading. Specific instructions are below.

1) *Personal names*

a) *Dates*. Include dates in references if they have been included in the heading. If the form of reference conflicts with an established heading, resolve the conflict by using dates in the reference, even if they are not used in the heading.

b) *Initials*. In references containing initials, generally include in parentheses the full form of the name represented by the initial(s) when known. However, if the initial is represented in the heading without the full form being given there, make the reference "match" the heading.

c) *Titles/epithets.* Include titles and epithets used in the heading in the reference unless, for titles, they are not appropriate to the form in the reference, or, for epithets, the purpose is to refer from a form containing a different epithet. For variant language forms for a person entered under surname, include titles of nobility and terms of honor and address in the form found in the source for the reference. If the source for the reference does not include the title, etc., use in the reference the term used in the heading, although it is in a different language.

d) *Compatible headings.* In August 2007, the policies on “AACR2 compatible” headings were relaxed by introducing guidelines permitting the revision of “AACR2 compatible” headings but requiring the revision under certain circumstances. See LCRI 22.1 for additional details.

 26.3. GEOGRAPHIC NAMES AND NAMES OF CORPORATE BODIES.

Follow these principles for new headings and as closely as possible in evaluating references on existing authority records and in creating automated authority records for headings found in the machine files (or in the manual catalog, if consulted). When the particular reference structure has already been evaluated, it is not necessary to delete references not provided for by these instructions but provided for by earlier editions of these instructions.

Generally, trace a reference from variant forms of entry that apply to the name chosen for the heading. However, do not trace a reference that would normalize to the same form as the heading or see reference on the same record or to the same form as a heading on another record. For variant forms of a name, generally, trace only one reference from each variant, normally, constructing it in the form in which it would be constructed if chosen as the heading. If, however, the name chosen for the heading is not in English and the name occurs in an English form, also trace references from the variant forms of entry that apply to the English form. (If, in such a case, there are multiple English forms, choose only one of the English forms to use in tracing references from the different forms of entry.)

Earlier Names of Corporate Bodies Now Subsumed Under the Heading for a Later Name Through a "See" Reference

Under earlier cataloging policies, when a corporate body changed its name, the heading was changed and all records revised to use the newer name. The earlier name or names was traced as a *see* reference to the later form used as the heading. In retrospectively converted records, these situations were identified by a note in the 667 field, e.g., "The following earlier name is a valid AACR2 heading: [earlier name or names in AACR2 form]."

When evaluating references, allow these *see* references to stand (correcting the form to AACR2 style, if necessary) until an item is received that requires the use of one of these earlier names as an access point. At that time, establish the heading, convert the *see* reference to a *see also* reference, and delete the 667 field note. Also, make any other necessary references (cf. LCRI 26.3B-C). Do not change any existing MARC or non-MARC bibliographic records.

 410 2# \$a National Civilian Rehabilitation Conference

Retain the reference and note until publications are received that would require the use of the heading "National Civilian Rehabilitation Conference (U.S.)."

110 2# \$a Granville Airplane Company
 410 2# \$a Granville Brothers Aircraft, inc., Springfield,

 667 ## \$a The following earlier name is a valid AACR 2
 heading: Granville Brothers Aircraft, Inc.

Correct the reference to the AACR2 form (Granville Brothers Aircraft, Inc.) and retain it and the note until publications are received that require the use of the heading "Granville Brothers Aircraft, Inc."

Unused Subdivisions

Under earlier cataloging policies, certain corporate subdivisions were not established. Instead, the heading for the parent body was used whenever the subheading would have been used. Usually, an internal LC reference was made from the unused subdivision to the heading for the parent body. In earlier periods of this practice, the unused subdivisions were only listed on the manual authority records for the parent body or were given in a form explanatory reference.

In the automated system, these unused subdivisions are identified by the following statement in the 667 field:

667 ## \$a Unused subdivision: [list of subdivisions, e.g.,
 Administrative Branch; Personnel Section; Research
 Unit]

Whenever one of these unused subdivisions is to be used in current cataloging, establish the subdivision and use it henceforth in all cataloging for which it is appropriate, leaving the existing bibliographic records as they are. Do not make any references between the two headings for the parent and the subdivision, and cancel any references that may already exist in the automated name authority file. Delete the name of the subdivision from the 667 field of the authority record for the parent body.

Information/Publication Agencies

Under AACR1, rule 18A1, references were made to a parent body from subordinate units that functioned as information or publication agencies. Whenever one of these agencies is encountered

26.3

in current cataloging, use it henceforth in all cataloging for which it is appropriate, leaving the existing bibliographic records unchanged. Do not make any reference between the two headings for the parent body and the information/ publication agency, and cancel any references that may already exist in the automated name authority file.

If the information/publication agency has been established separately, apply these instructions both when the information/publication agency is needed for immediate use as a heading and when it is not (e.g., it is encountered in handling the authority record for the parent body). If, however, the information/publication agency has only been traced as an unused subdivision reference on the manual authority record for the parent body, handle it according to the instructions above for unused subdivisions.

Introduction

LC practice:

On June 1, 2006, LC announced a change in policy applying to all bibliographic resources (monographs, serials, and integrating resources) in series. LC now analyzes and classifies separately all parts of monographic series and of multipart monographs with the exception of those categories listed in LCRI 13.3. As of the same date, LC does not give “controlled” access points for series in new LC original cataloging (CIP and non-CIP) bibliographic records, does not update series access points in existing bibliographic records, and does not consult, make, or update series authority records. (Exception for consulting SARs: see LCRI 25.5B for determining “conflict.”) LC will “pass through” the series information already in bibliographic records used by LC as copy (CIP/LC partner records, PCC records, and non-PCC (including Casalini) records).

PCC practice:

Transcription of the series statement is mandatory if applicable. Searching for series authority records, tracing the series, and the creation and maintenance of series authority records are optional. As of June 1, 2006, the following instructions in this LCRI apply only to PCC participants creating and maintaining series authority records.

Although rule 26.5A addresses only see references for traced series, this LCRI contains guidelines for see *and* see also references on series authority records for *all* categories represented by such authority records (monographic series, other serials, multipart items, series-like phrases) *regardless* of local treatment decisions concerning analysis, classification, and tracing practices. Unless a specific category is mentioned, the word "series" in this LCRI applies to all four categories.

N.B.: Full reference structure is *not* given for each example.

If an added entry is needed for a series in a bibliographic record, or if the heading for a series is needed as part of a heading/reference in a name/series authority record, use the heading on the series' own AACR2 bibliographic record or authority record.

General Guidelines for See References

In title references (subfield \$a, subfield \$n, and subfield \$p) and title portions of name/title references, omit an initial article unless it is to be filed on.

Add a qualifier to a reference if it conflicts with the heading of another publication according to the guidelines in LCRI 25.5B.

Add the qualifier "(Series)" to a reference if it is identical to a personal or corporate (including geographic) name (cf. LCRI 25.5B).

Do *not* break a conflict between see references.

When using an existing series authority record, add any appropriate references not already in the record. Do *not* delete references made according to earlier policies.

Types of See References

1) *Alternative forms not selected as series heading*

a) *Heading is uniform title*

(1) Give a name/title proper reference for the situations listed below. If the heading includes a parenthetical qualifier, do *not* include that qualifier when recording the title proper in the reference.

(a) when a body responsible for the series is a noncommercial one or is a commercial one whose responsibility extends beyond that of merely publishing the series; in this context, consider university presses as "commercial";

When the title proper or series-like phrase found on an earlier or later issue differs from the form used in the heading, give a *see* reference from the earlier/later form if the difference does not constitute a major change (cf. AACR2 21.2C and LCRI 21.2C). Construct the reference in the form, title or name/title, that would be used as the heading; generally, do not give references that are variations of these references.

5) Fluctuating titles

a) *Different languages.* If the language of the numbered monographic series title proper on later issues varies according to the language of the text, give a reference from the series title proper in the other language(s). (Cf. LCRI 21.2C.) However, if there are parallel editions in different languages, establish separate headings (cf. LCRI 1.6).

b) *Regular pattern.* If the title proper on later issues of a monographic series varies according to a regular pattern, give a reference from that later title.

6) Other situations

a) *Substitutions.* Use judgment when deciding whether a reference that is a modification of the form used in the heading (spelled out form for an abbreviation, word for symbol, word for numeral, arabic numeral for roman numeral, two words for compound word, initialism without periods for initialism with periods, etc.) is appropriate. Consider whether users might expect that form to have been the established form and whether the substitution would occur in the first five words. Construct the reference in the form, title or name/title, that would be used as the heading; generally, do not give references that are variations of these references.
